

WOMAN'S WORK IN
WORLD'S REDEMPTIONAn Address Delivered by Rev.
James Vernon, of Men-
derson, Ky.

TO THE C. W. B. M. IN THIS CITY.

(Continued from last issue.)

Among the wild tribes of Abyssinia the woman has the right of divorce. Among the Bongos an adulteress is whipped but her guilty partner is beheaded because as they say the man is the more guilty. Among the Friendly Islanders women are well treated and the same is true of the people of Samoa. Among the Philippines if a man wants to marry a woman she can go to the forest and hide and if he cannot find her in a day she need not marry him. These things however are but gleams of light through an appalling cloud. Among cannibals and those who have offered human sacrifices the victims are generally women. Among the Baccanians and Australians a man can kill the wife who displeases him. Among the Adanians a woman must wear her husband's skull suspended by her neck. In Borneo a married woman must tattoo her hands and feet, and in Japan she must blacken her teeth and pull out her eyebrows. A missionary, who had been to Africa, told me that a chief once offered to give him five wives if he would only come to his village and preach the gospel to his people.

On the Suez canal the steamers are coaled by women and they build all of the railways in Oriental countries. When Stanley ascended the Congo his steamer had to be taken to pieces and carried 300 miles. The carriers were all women, and he records the fact that when they came to put the steamer together not one piece was missing. Among the old Germans when a girl was born the neighbors gave the family a load of beach wood, but when a boy was born they gave them two. When Louise, the mother of the present Emperor of Germany was born, her father, Prince Albert, of England, wrote to Baron Stockmar: "Though it be a girl my joy is very great." In England, Germany, Italy and Russia women work as day laborers in the fields, quarries, tin, copper, salt and coal mines, they are track layers, hod carriers and coal heavers. A recent census of England shows 847 blacksmith helpers, 9,188 horseshoe nail makers, 7,000 makers of boiler rivets and hundreds of chain makers at wages ranging from a dollar a week up.

Victor Hugo said, "The 19th century was woman's century and I say that the United States is woman's country."

Mrs. Potter Plamer said about the same thing at the World's Fair in Chicago, when she said, "Columbus discovered America and America discovered woman."

As we look our country over carefully we see that the great trend of all our thinking and law making is to give all people, if not the same chance, an equal chance. That the girl shall have an equal chance with the boy, the young woman with the young man, the married woman with the married man and the widow with the widower. Of course we believe that woman's true real sphere of action is the home and that is the highest place on earth. I can never for-

get what I once heard Henry Ward Beecher say, "Home is the foundry of man. My young sister, you ought to be getting yourself in training for that calling now. God has given you wings and you can be either an angel or a moth. And the poorest looking girl is a moth when its wings are gone. Don't spend your time by spattering yourself with fringes and bangles and your millinery gew gaws, don't lace and squeeze yourself out of your proper human shape. Get down off those high heels, burn up those straight fronts, those sheath gowns and shameless peek-a-boos, and occupy your time with something else than priming and powdering and fussing and fazzling and ditting and waltzing and ten cent novels and five cent theas. If you don't, Lord have mercy on the man who gets you for a wife. He will get a walking drug store, a doll with a tinsel dress and saw fast for brains. Do you know that you are headed now straight for the sanitarium and the operating table of a specialist. Sound these things, turn from them at once and let yourself grow up sweetly and naturally, be healthy and strong and then when you meet some man, whose character you love, marry him and as the book says, "Love happy ever after."

Don't marry a man to reform him. If you do not marry for his money. If you do you are just as immoral as any woman who sells herself. But now what about the large class of women who will never be home makers? There are over a million women in the United States who consider themselves unfitted for the responsibility and duties of domestic life. Flossy was six years old she said, "Mamma, I marry will I get a husband like pap?" And her mother said, "Yes." And if I don't get married, will I have to be an old maid like aunt Kate? And her mother said, "Yes." The little girl sighed and after about a minute said, "Mamma, it's a tough world on us women, isn't it?"

Good Woman Goes Home.

Mrs. Mary F. Heafer, formerly of Madisonville, widow of J. T. Heafer, died at her home in Henderson Saturday morning, death being caused by bowel trouble. Mrs. Heafer had many old friends and acquaintances, who deeply regret to hear of her death. Prior to her moving to Henderson about three years ago Mrs. Heafer lived in Madisonville. She was a sister of Mrs. E. S. Baker, of Madisonville, and was 71 years of age. She leaves two children, Ed Heafer, of this city, conductor on the Interurban between Nortonville and Madisonville, and Miss Myra Heafer, who resides with her mother in Henderson. She is survived by Mrs. E. S. Baker, of Madisonville, Mrs. Letitia Settle, of Oalhoon, sisters. Her husband died about a year ago in Henderson.

The remains were buried in Old Fellows cemetery, in Madisonville, Sunday morning, where her husband was buried about one year ago.

Mrs. Heafer was a beloved woman whose many splendid traits of character made her loved by everyone who knew her. She was a devoted worker in the Baptist church. She lived a beautiful life and her passing is deeply regretted.

Card of Thanks.

I desire to thank the good people of Earlington for their kindness to myself and family during the illness and death of my wife.

JAMES FEGAN.

DEATH CALLS MRS. JAMES FEGAN

To Her Final Home Friday Morning
After a Long Illness.

The death angel summoned Mrs. Lucinda Fegan, wife of James Fegan, of the city to her long home Friday morning. Mrs. Fegan had been ill for a number of months with bronchial trouble and had for the past few weeks been in a critical condition. Consequently her relatives and friends knew that the end was not far off and were in manner prepared for it.

She was sixty years of age and had been married 42 years and had been a resident of this city 35 years. Her husband and six children survive her four boys, Robert, John, Thomas and Richard Fegan and two daughters, Mrs. Nick Shannon, of this city, and Sister Mary Thomas, of Nashville, Tenn. Mrs. Fegan was a consistent member of the Church of Immaculate Conception, a good neighbor and true friend. The funeral services were conducted by Rev. J. P. McFarland in the Catholic church at eight o'clock Saturday morning and the interment took place at the cemetery immediately afterward. The corps was followed to its last resting place by a large number of sorrowing friends.

McCreary in Governors Race

A letter to the writer from Hon. James B. McCreary, of Richmond, states that upon the urgent solicitations of many friends and numerous newspapers he has decided to offer as a candidate for the Democratic nomination for Governor of Kentucky to be voted for next year. Up to this time there are four active candidates in the field for the Democratic nomination, and with the old Democratic war-horse leader, Jas. B. McCreary, in the race the fun will now begin to fly.

Locomotive Blasts

Railroad Men Assist Their Employers.

The management of the Illinois Central, through the Vice President, W. I. Park, has issued an appeal to its 40,000 employees to make the railroad's interests their own, and do all in their power to educate the people to the idea that the railroads need more revenue. Mr. Park makes the statement that the physical condition of American railroads, with few exceptions, is far behind those of Great Britain and continental Europe, and that large sums of money are now required to rebuild systems. He asks the employees to realize that an attack upon the railroad is an attack upon them; that it is a financial impossibility for the railroads to continue unless their earnings are bolstered up by increased rates.

C. Shaft, claim agent for the L. & N. was in the city Thursday getting details of the Owen Carpenter accident.

William F. Sheridan, of the L. & N. who has been here several days on business for the company.

Dick Hankins attended the Providence fair Saturday.

The Largest White Oak Tree.

What is said to be the largest white oak tree in the world is the one at Tiffin, O. This tree is 7 feet 6 inches in diameter at the base and 25 feet in circumference. The first limb branches out more than 70 feet above the ground.

News of the Mines

Morris Harrison and family, of St. Charles, visited relatives on Methodist Hill last week.

Hardin Tweedle, of Victoria mine, was revolving around among friends here last Sunday.

Thos. Blair, the Hecla weighman, leaves today for an extended visit to his old home in Virginia.

Henry Jones has had a cubit added to his stature. He now presides over the emblem of justice at Hecla; in other words he is giving out "a weigh" during the absence of Mr. Blair.

A new receiver is about ready to be placed at Arnold. The old one "crotch" fire last week from superheated air. To avoid this trouble in the future the receiver will be placed further from the compressor.

W. D. Caviness and his lieutenants are having a lively tussle with a goggle eye pump near the old Barcomb place, which it seems is prone to "take the stud" occasionally. An early cure is confidently predicted.

Messrs. Rayborn and Sadler were pretty numerous around Shamrock last week. They put up a steam pipe line and equipped a rope haulage of one thousand feet, which includes that distance on the last part of the loaded haul to the hoist shaft.

Foreman Nollie Umstead, with a coterie of kindred spirits, shrunk new tires on the Victoria motor last Sunday. Of course it was a "tire"-some job, but they never "shrunk" from it. They had to either re "tire" the wheels or re "tire" the motor, therefore they chose the lesser evil.

A great deal of official presence was required at Shamrock mines last week—so much so that the uninitiated feared great impending danger at that famous colliery, but knowing ones asserted that the proximity of the Providence fair, not the well "fare" of Shamrock, was the consideration, and it does seem that they were Providence-tially directed in their course.

One of the big posts at the slack bins passed the secession act last week, giving away in the lary deck, and of all men Hicks and Summers were most miserable. They refused meat, rent their clothes, and sat in sack cloth. They employed the aid of the "trouble crew" (Toombs and his satellites) who after much prayer and fasting laid hands on and healed the "broken column," and immediately Hicks and Summers did eat, offer sacrifice and chant hymns of joy.

Motorman Wast, of Victoria mine, had an unpleasant experience last Thursday. He was making a scheduled loaded run, when he unexpectedly ran into an empty car which had broken away from an empty trip and was standing in his way. He crashed into it and knocked it aside, but it jammed the rib and slewed the motor so that the outside rib broke and derailed the trip, pulling down six sets of timbers. No one was hurt, and in one hour and twenty minutes Wast was again putting coal upon the market.

Notice.

Members of Camp 528, U.C.V.: You are requested to meet at the court house, Madisonville, at 10 o'clock Saturday, Aug. 13, to attend to important business.

Commander.

NIGHT RIDERS EVADE TROOPS

Bart and Spunk Creekmur Still at large
in Lyon County.

Paducah, Ky., Aug. 6.—Bart Creekmur and Spunk Creekmur, charged with firing the shots that killed Axion Cooper, in Lyon county, are still at large, successfully evading the State guards who are searching for them. They were not at home and it is believed they have fled the county. Adj. Gen. P. P. Johnston, of Frankfort, is personally commanding the troops and will continue the search for the accused.

The Adjutant General's visit to Lyon county was for the purpose of making a personal investigation. He stated that the county officials were doing all in their power to preserve order and it is said he will issue a signed statement of the facts.

As yet no steps have been taken toward holding the examining trial. The regular August term of the Lyon Circuit Court will be convened August 15. As the date is so near at hand, the prisoners probably will await the action of the grand jury.

Lyon county has again become normal, the presence of soldiers, who are patrolling the public highways, having a soothing effect.

INDEPENDENT TICKET ELECTED

In the Old Volunteer State—Downs the
Regulars.

Independents were elected on the judicial tickets in Tennessee in one of the most exciting and had fought political contests ever known in the state.

Independent headquarters claim the majority will approximate 40,000 votes. The regular democrats, whose ticket is defeated claim these figures will be cut by 10,000 votes in many places. They also charge they were denied representation at the polls by the election commissioners dominated by the independent faction.

Resolutions of Respect.

E. W. Turner Lodge No 548
F. & A. M.

Earlington, Ky.
Whereas, God in his infinite wisdom, has called from this earthly labor to eternal refreshment, our brother, J. P. McGregor, who departed this life in Hopkins county, Ky., on the 16th day of July, 1910, therefore be it

Resolved, That in the death of Brother McGregor, this lodge has lost a worthy member and the members of the lodge a true and loyal brother, who lived the teachings of this order.

Second, That his fellow citizens here have lost a peaceful, law abiding member of the community, who was ever solicitous of the welfare of his neighbor, and who always manifested deep interest in the improvement of the county.

Third, That his widow and his children have lost a good husband and kind father, whose thoughts were always of them and who loved them above every earthly interest.

Fourth, That this lodge extends to his family, relatives and friends, our heartfelt sympathy and commend them in their bereavement to Him, the great consolator.

Fifth, That a page of our records be set apart for these resolutions, a copy sent to the family, to the Masonic Home Journal and the Semi Weekly Bee for publication.

FEDERAL REUNION

NEXT MONTH

In Nibet's Grounds Near Madisonville
Will Last Four Days.

A reunion of the Old Federal soldiers will be held at Camp Jim Jackson, in Nibet's Grove, north of Madisonville, Sept. 6 to the 10 and it will be one of the largest, if not the largest old soldiers reunion that was ever held in the State of Kentucky. The 3rd, 8th, 12, 15, 17, Kentucky Cavalry and the 11th, 17th, 20th, 26th, 35th, 48th, and 52nd Kentucky Infantry will hold the reunion.

Many able and gifted orators will address the people daily. Concession stands will be in operation.

All the soldiers that served in the Spanish America war are cordially invited.

There will be many new and interesting attractions and good music will entertain everyone.

At sunrise every morning a national salute will be fired. It will be one of the biggest affairs that has ever taken place in Madisonville and will be a credit to the city.

White Plains Woman Dies.

Funeral services for Mrs. Alice Vinson, who died at White Plains Wednesday after a lingering illness of tuberculosis, were held at Mt. Carmel church Thursday. The remains were laid to rest in Concord cemetery in the presence of a large number of friends and relatives.

Mrs. Vinson was about 30 years of age and was a good woman. She had a wide acquaintance in that section of Hopkins county and was loved by all who knew her.

The deceased is survived by a husband, Mrs. Luro Berry, Mrs. Pearl Josey, sisters, White Plains; B. F. Dukes, White Plains; and D. V. Dukes, of Madisonville, brothers. Her mother also survives.

Society Happenings

Two of our prominent young people will wed in October. Names and date will be given later.

The K. K. Band will have charge of the Electric Theatre Tuesday night. Four reels and special music have been arranged. Let every one turn out and help the band boys along.

An enjoyable dance was given by some of the young men of the town to the visiting ladies Friday night. Quite a number turned out and the dance was all that could be expected.

Mr. and Mrs. H. L. Browning gave a week end party to a few friends at their lovely home on "The Heights" last week. To say it was a success and that the guests had an enjoyable time is unnecessary.

Mrs. Jue L. Long gave a slumber party at her beautiful home on Friday night in honor of her guest, Miss Gillyday Freeman. A large number of guests were present, who pronounced it a very enjoyable affair.

Careless With His Wad.

Ten \$500 bills, carelessly wrapped in a package open at one end and labeled "pictures," were received by Mrs. Samuel Plantz, of Appellton, Wis. An inclosed note explained that the money is to be used as part of the \$17,000 necessary for the erection of a boys' dormitory at Lawrence college. The donor did not give his name.

Society Happenings

Two of our prominent young people will wed in October. Names and date will be given later.

The K. K. Band will have charge of the Electric Theatre Tuesday night. Four reels and special music have been arranged. Let every one turn out and help the band boys along.

An enjoyable dance was given by some of the young men of the town to the visiting ladies Friday night. Quite a number turned out and the dance was all that could be expected.

Mr. and Mrs. H. L. Browning gave a week end party to a few friends at their lovely home on "The Heights" last week. To say it was a success and that the guests had an enjoyable time is unnecessary.

Mrs. J. L. Long gave a slumber party at her beautiful home on Friday night in honor of her guest, Miss Gladys Freeman. A large number of guests were present, who pronounced it a very enjoyable affair.

Careless With His Wad.

Ten \$500 bills, carelessly wrapped in a package open at one end and labeled "pictures," were received by Mrs. Samuel Plantz, of Appletton, Wis. An inclosed note explained that the money is to be used as part of the \$17,000 necessary for the erection of a boys' dormitory at Lawrence college. The donor did not give his name.

THERE IS A REASON

Why it pays to advertise in the **SEMI-WEEKLY BEE**:
It reaches a large number of wage earners who take no other paper.
It has an almost exclusive circulation in a community where \$50,000.00 in money is paid out each month.
It is read by hundreds of people who buy what they want and who have money to pay for what they buy.
The only way to get your advertisement before the people of Earlington, Morgans (Cap. St. Charles and immediate vicinity is through the medium of the Earlington Bee. A hint to the wise is sufficient.

SPEND YOUR MONEY AT HOME

Those who patronize mail order houses in preference to their home merchants should go and look at the so called business streets of the suburban towns near the large cities. There are no well stocked stores such as are seen in every little country town, only small shops with meager stocks.

The reason for all this is not far to seek, the residence of these places go to nearby cities to spend their money and will only buy at home what they need in a hurry. The consequence is, they have only the little poorly stocked stores in their home town and must go to the city to buy whether they wish to or not. These people have destroyed their home towns to build up the city merchants. This is no idle dream, remarked the Franklinville, N. Y. Journal. Many of the country people are unwittingly taking a course calculated to produce the same results in our prosperous country towns, and are rapidly making them dead and undesirable places.

Every dollar sent to a mail order house is a step in that direction. Every dollar sent out of your own community in that way helps to build up a city and keep back your own town. Every order sent to a mail order house helps to keep your home merchant from making an honest living.

You buy of the mail order house to save money. On some article you may do so, but the mail order man is a shrewd chap, making up his catalogue and prices in his study, and he always contrives to have some article very cheap in order to attract attention and sell the rest. You will not save any money in the long run and are very liable to get a lot of things that are not what they claim to be. If you want your home to be alive and interesting, if you want your home merchants to keep goods, if you want a good home market for your produce, then keep your money at home.

It may surprise those who think that agriculture is almost the whole thing in this country. But—during the year ended June 30 the exports of manufactured products from the United States were valued at \$708,000,000, and the exports of food products for the same period were valued at \$370,000,000.

If anybody can produce better summer resort weather than Earlington has lately been affording

we would like to receive a sample package.

The principal continues to be demonstrated now and then that a man cannot safely hope to derail a moving train with his foot—or his head.

It is still an open question: Who is the bravest, he who goes to war or is first to own and operate an automobile in hostile territory.

The tower of Babel wasn't in it. A French Aviator has reached an altitude of 5,850 feet in England.

The authentic mines of this country will now proceed to be properly operated.

Course in Agriculture.

The Western Kentucky State Normal School offers a practical course of study in Elementary Agriculture, demonstration and actual work done on school farm. Teachers will have an opportunity to prepare for teaching the subject. Great opportunities offered young men who expect to make farming a life work. Course begins Sept. 6, 1910. Write for information. Address H. H. Cherry, President, Bowling Green, Ky.

Press Day Committee for State Fair.

Richmond, Ky., Aug. 8.—Editor A. D. Miller, of this city, President of the Kentucky Press Association, is in receipt of a letter from the officers of the Kentucky State Fair Association, of Louisville, advising him that Thursday, September 15, had been set aside as Press day, and that the had been selected as chairman of the press committee to arrange the program for that day, and for him to select twenty-five other newspaper men throughout the State to serve and assist him on the committee. Those whom he has named are: T. H. Pickles, Richmond; Desha Breckenridge, Lexington; Louis Landrum, Danville; Henry McCarty, Nicholasville; M. A. Thompson, Georgetown; Wallace Brown, Bardonia; L. O. Littrell, Owenton; Chas. Metcalfe, Pineville; W. J. Denhardt, Bowling Green; Jas. Allen, Cynthiana; E. A. Galliou, New Castle; T. C. Underwood, Hopkinsville; Harry Sommers, Elizabethtown; L. W. Gaines, Trenton; G. F. Friel, Ashland; D. T. Peak, Bedford; Paul M. Moore, Earlington; Urey Woodson, Owensboro; Green Keller, Carlisle; W. S. Dowlatiue, Warsaw; Lewis F. Chapman, Catlettsburg; D. M. Duncan, Brandenburg; John D. Babbage, Cloverport; C. C. Howard, Hodgenville, and B. B. Coziene, Shelbyville.

Engage in Cutting Alfalfa.

Whit Smith and Henry Coeler engaged in an argument Friday morning about money matters. Whit claimed that Coeler had forty dollars that rightfully belonged to him and Henry claimed he did not. The argument lasted until summer time hill was reached where Smith became enthusiastic and struck Coeler over the head with an empty bottle cutting his face to some extent. Marshal Bradley arrested Coeler and brought him to the Hospital where his wounds were dressed after which he was released on bond. Smith made good his escape at the time, but later gave himself up and was released on bond.

"BEYOND THE ALPS LIES ITALY."

A POEM OF NAPOLEON BONAPARTE.

(By Sarah A. Gibbs.)

Beyond the mountains covered with snow,
Beyond the icy plain
Lie summer seas—and rivers flow
Where valleys wave with grain,
There every heart press on and see
"Beyond the Alps lies Italy."

There musky roses bloom and die,
Grapes purple in the sun;
And summer aile and cloudless sky
Make earth and heaven seem one,
Take courage then; toil on and see
"Beyond the Alps lies Italy."

If friends are foes and loves are lost,
And life seems dark and drear—
Earth's pleasures evermore have
O'er

The true heart many a tear;
So ne'er despair—look up and see
"Beyond the Alps lies Italy."

Though days are dark and night are
long
And sorrows cross the way;
Take courage yet—be brave and
strong

They may not always stay.
O, weary soul look up and see
"Beyond the Alps lies Italy."

Night will not always last, and rain
Will change to sunshine in the
morn,
And joy will follow after pain—
Of sorrow, sometimes, love is
born.

And brave, true hearts ne'er fail to
see
"Beyond the Alps lies Italy."

Then take the watch-word to thy
heart;
Press on the prize to win.
Bid doubts forevermore depart
And cry to foes within
Like martial music, bold and free,
"Beyond the Alps lies Italy."

Free Tuition.

All eligible persons are entitled to free tuition in the Western Kentucky State Normal School. The fall session begins September 8, 1910. Write President H. H. Cherry, Bowling Green, for information.

Wealth of Railroad Magnates.

Edward H. Harriman was worth \$71,000,000 when he died, September 8, 1909. Wall street and the general public have made estimates of the amount of the Harriman estate that ranged from \$100,000,000 to twice as much, but even few of his intimate friends believed that his estate would fall below \$80,000,000. The estimate given above is that prepared by Charles A. Peabody, President of the Mutual Life Insurance Company, who was one of Harriman's closest friends and legal advisers, and who, since the death of Harriman, has acted as chief advisor of Mrs. Harriman, to whom the financier left everything he possessed. In connection with this estimate of the Harriman estate, it is pointed out that Cornelius Vanderbilt left \$72,500,000; Jay Gould, \$72,000,000; J. Stewart Kennedy, \$70,000,000, and Henry H. Rogers, \$39,000,000.

L. & N. May Own Steel Plant.

For the purpose of using it as car building, the Louisville & Nashville railroad company is said to be planning the erection of a steel plant on the east side of Floyd street, just across the street from the present shops of the company in South Louisville. The new plant will be used, it is said, for the manufacture of steel framing for freight cars and passenger coaches, which are superseding the old-style wooden frame coaches. The steel frames and bottoms have heretofore been constructed in Pittsburgh and shipped here, but it is said the L. & N. believes that the work will move faster if they are manufactured in Louisville.

For Sale.

Call on or address me at Earlington, Ky., for the best ironing board ever offered the long suffering public. It locks itself to a table, a shelf or a neat nailed table height to the wall so tight that Samson with his hair on could hardly pull it loose, yet when desired can be instantly released, folded compactly and stored away, occupying no more room than a simple board, is strongly made, will carry several hundred pounds weight without a murmur, will last a lifetime and prove a blessing to the next generation. Delivered in the city at \$1.25 each, shipped anywhere on receipt of the price, the purchaser paying the freight or express charges. W. A. TOOMBS, Inventor and Promoter.

A Plank's inside and Outside. There is an inside, also an outside, to every plank or board, the outside being the side farthest removed from the "girth," or center, of the tree from which the plank was cut. The careful workman always bears this in mind when fixing boards. He leaves the outside exposed to the air. If the inside is exposed to the atmosphere the earlier layers will ultimately swell out in shreds and strips owing to the action of the air destroying the timber's cohesive properties. As a result the even surface will be destroyed, a serious defect in better class work.—Pearson's.

 For an energizing life giving drink that unites in itself the peculiar properties of the solid with those of the liquid one might do worse than try Chessa, the favorite beverage of Voltaire. DAYS WON AND LOST.

If we sit down at set of sun
And count the things that we have
done,
And counting fine
One self-denying act, one word
That eased the heart of him who
heard,
One glance most kind
That felt like sunshine where it
went,
Then we must count the day well
spent.

But if through all the living day
We've cherished no toiler on his way,
If through it all
We've nothing done that we can
trace
That brought the sunshine to a face,
No act most small
That helped some soul and nothing
lost,
Then count that day as worse than
lost.

MERRY MOMENTS FOR EVERYBODY

PROGRAM OF ENTERTAINMENT
ARRANGED FOR KENTUCKY
STATE FAIR VISITORS

ENGAGE BEST FREE ATTRACTIONS

"Pioneer Days in Kentucky" Will Be
Crowning Feature of the Pyrotech-
nic Display Each Night.

American people must have amuse-
ment and no set of men recognize the
fact better than the officers and man-
agers of the Kentucky State Fair. The
round of pleasure at the eighth annual
state fair, to take place in Louisville,
September 12-17, will be as nearly con-
tinuous and complete as it is possible
to make it.

Secretary J. W. Newman has this
season paid particular attention to
what may be described as the purely
amusement features for the forthcom-
ing state fair. A contract has been
closed with United Fairs Bldg. Co.
to supply "The Pass" with the most
novel and up-to-date attractions that
could possibly be assembled. The
usual precautions have been taken to
insure the correct tone and
cleanliness of the individual shows.
This amusement feature will be on
such a large scale this year that it
was found necessary to enlarge the
area heretofore utilized as "The Pass,"
and that justly famous avenue of
mirth will be arranged in the shape
of a monster crescent, with every inch
of space along the avenue occupied by
some new amusement conception.

The list of "free attractions" is a
splendid one. These offerings of the
fair include the correct tone and
popular last year that care was taken
this summer to close contracts with the
best offerings the amusement market
had to present. A star feature will be
the Wahamama Japanese troupe, con-
sisting of a dozen or more tumblers
and jugglers from the Land of the
Rising Sun. "The Japs" will compete
with Madam Louie's Monkey Show,
Plak's Trained Mules, Morris and
Morris, Expert Tumblers, and Slacker
and Hilde, High Wire Artists.
Fancy Horses are ex-
pected to carry off the highest hon-
ors, however, among the free attrac-
tions. This entertainment is nothing
short of a three ring circus, which
will be presented each afternoon and
evening.

The scene of spectacular display will
be enjoyed each evening in the fire
works exhibition. A contract has been
closed with the world-famous Pain,
and that noteworthy is now at work
on a program especially for the Ken-
tucky State Fair. The feature of the
fire works display each night will be
an original pyrotechnic production en-
titled, "Pioneer Days in Kentucky." It
is said that the services of over 150
men and women will be required to
properly present the spectacle.
In addition to the features already
described, there will be the races by
day and the horse show in the pa-
villion by night. Negotiations are also
under way with owners of other
amusement enterprises, and it is prob-
able that the list of special attrac-
tions will be largely increased before
the opening of the gates of the 1918
fair.

TOBACCO ON DISPLAY.

Splendid Exhibit Planned as Feature
for Kentucky State Fair.

A tobacco exhibit surpassing any-
thing of the kind ever seen in Amer-
ica is promised for the Kentucky State
Fair of 1918, which will be held in
Louisville the week of September 12.
Wm. Adams, of Cincinnati, will be
the member in charge of the exhibit.
P. P. Beebe, of Carrollton, is superin-
tendent, with an associate in E. S.
Rees, of Louisville. The latter has
been actively engaged for several
weeks in the collection of the exhibit,
and an especially interesting display
is promised from the dark tobacco
district. Present indications point to
an average Kentucky crop, and ad-
vice received from those in charge
of the work indicate that the indi-
vidual samples put on exhibit will be
of unusual worth and the volume of
exhibit will be the greatest in fair
history.

In the Burley types exhibits will be
made of the crops of both 1909 and
1910. Red Leaf, Bright Leaf, Cigarette
Wrapper and Bright Tinas types will
be shown in each year's class, with
premiums aggregating \$10 hung up in
each instance. Similar premiums are
offered for the dark tobacco exhibits,
entirely being confined to the crop of
1910. The following types are listed
for prizes: Austrian Leaf, Black
Wrapper, Long or African Leaf,
French Leaf, Italian Leaf, Green River
Leaf, and Stemming Leaf. In addition
to the prizes mentioned, valuable
sweepstake premiums are offered in
all three classes.

The official sanction of Kentucky
to the tobacco exhibit is illustrated in
the donation of \$100 by Commis-
sioner of Agriculture M. C. Rankin.
This money is distributed through
premiums. Every grower is invited
to compete for one or more of the
premiums and each will be supplied
with whatever information is desired
upon communication with either the
superintendent in charge or the Sec-
retary of the State Fair.

SUPERB SPICES FOR PICKLING

Pure, full flavored spices are the
most economical the year round,
but especially during the pick-
ling, and canning season. Your
preserves and pickles are put up
for use throughout the year, and
once done cannot be changed.
The delicate, appetizing charac-
ter of these products depends on
your using the right quality of
spices.

We guarantee the purity and
high quality of our spices. They
are the kind you can use with ab-
solute certainty of good results.

Ameliorating Army Life.

Cold tinmed meats for troops in
warefare will soon disappear from
the lists of the hardships of active
service. The use of the motor ve-
hicle and the invention of a means
of cooking tinmed or fresh meat
while moving rapidly have received
the approval of the authorities.

An Irish quartermaster has in-
vented a traveling kitchen, fixed in
an ordinary wagon, which cooks for
800 men as it moves with them, and
at the first halt is a forced march a
hot meal can be served at once. By
the application of motor power, the
radius of these traveling stoves can
be increased enormously in dealing
with scattered troops, and it is about
possible for men in the most
lonely outpost situations to be served
with hot food instead of eating the
cold rations which they carry with
them.

These kitchens are so balanced
that they keep upright when pass-
ing over the roughest ground with-
out spilling or risk of turning over.
The field kitchen is an oil fuel one,
without spark or smoke—London

division, to a place of greater re-
sponsibility at Louisville, are
without official foundation, ac-
cording to statements from the
L. & N. officials.

"I have heard nothing official
of any changes to be made,"
said Mr. Logsdon, "and I am
certain they can be put down as
mere gossip. Mr. Evans has a
position of such great responsibility
with the L. & N. at Lou-
isville that I doubt if he would
be transferred to the Monon."
The rumor also marks Assis-
tant Superintendent M. Dev-
ney, of the L. & N., for prom-
otion to Mr. Logsdon's present
position.

MAYOR HEAD VISITS HOMETOWN

Makes Speech at Fair and Alludes to As-
pirations.

Mayor Head visited his birth-
place and boyhood home, Provi-
dence, one day recently, and in a
speech at the fair grounds al-
luded to his aspirations to the
governorship. His mention of
his candidacy was greeted with
prolonged cheers, and he was as-
sured of carrying Webster coun-
ty.

Capital Punishment Declining
In Italy capital punishment
doesn't exist, and it has been abol-
ished in the states of Maine, Michi-
gan, Wisconsin, Rhode Island and
Kansas. Colorado and Iowa have
both restored it after brief periods
of abolition.

As to the methods of carrying out
death sentences: The guillotine is
employed publicly in France, Bel-
gium, Denmark, Hanover and two
cantons of Switzerland. The gal-
lows is used publicly in Austria,
Portugal and Russia, and privately
in Great Britain and the United
States, except New York and New
Jersey, where the electrical chair
has been substituted.

Death by the sword obtains in
great cantons in Switzerland, in
China and Russia, publicly; while
in China transubstantiation by the
cord is used, and in Spain the garrote,
both public and in Brunswick, death
by the ax.
